Greece – Italy

**Cross-Border Cooperation Programme
GREECE – ITALY 2021-2027**

- ✓ **Performance Framework**
- ✓ **Eligible activities – Expected outputs**
- ✓ **Intensity of cross-border cooperation**
- ✓ **Consistency with EU Horizontal Principles**
- ✓ **Synergies & Complementarities**

Cross-Border-Cooperation Programme Interreg VI-A ‘Greece-Italy 2021-2027’

CCI 2021TC16RFCB019
C(2022)6578/08.09.2022

Programme Priorities

PRIORITY 1

Enhanced cooperation for a more **competitive** and **smarter GR-IT area**

PRIORITY 2

Enhanced cooperation for a **greener** and low carbon **GR-IT area**

PRIORITY 3

Enhanced cooperation for a more **social** and inclusive **GR-IT area**

PRIORITY 4

Enhanced **governance for cooperation** in the **GR-IT area**

Priority 1 – A competitive & smarter GR-IT area

€ 19,26 M.

POLICY OBJECTIVE 01
a more **competitive**
and **smarter** Europe

PRIORITY 1

Enhanced cooperation for a more **competitive** and **smarter GR-IT** area

SPECIFIC OBJECTIVES

SO1.1.

Developing and enhancing **research and innovation capacities** and the uptake of **advanced technologies**

SO1.2.

Reaping the benefits of **digitalisation** for citizens, companies and governments

SO1.3.

Enhancing **growth and competitiveness** of SMEs and job creation in SMEs

SO1.1.

Developing and enhancing **research and innovation capacities** and the uptake of **advanced technologies**

INDICATIVE ACTIONS

(Non exhausted list)

- Exchange/transfer of good practices in the area of smart technologies
- Development of tools, pilot actions as well as joint strategies and action plans and solutions for the enhanced smart economic transition
- Technology and innovation transfer, between research and business for the improvement of the innovation cross border eco-system
- Enhancing support services for improved accessibility to research, technological innovations and advanced technologies uptake, especially for SMEs and entrepreneurs
- Strengthening cross-border innovation networks, clusters and platforms for enhanced cooperation among innovation hubs and living labs
- Improving collaboration along value chains of sustainable innovative products and services in coherence with smart specialisation strategies
- Fostering quadruple helix ties in the fields of marine technologies and blue bio-technologies

POTENTIAL BENEFICIARIES

Universities, laboratories, policy departments, regulators, research institutes, chambers of commerce, development agencies, business networks and incubators, private and public institutions

OUTPUT INDICATORS

- 6 Jointly Developed Solutions
- 30 Pilot actions Jointly Developed

SO1.2.

Reaping the benefits of **digitalisation** for citizens, companies and governments

INDICATIVE ACTIONS (Non exhausted list)

- Develop common approaches in cross-border actions aiming at adapting regional skills to industrial transition.
- Developing cross-border knowledge hubs and innovative learning systems contributing the technology priority areas of relevant regional smart specialisation strategies (RIS3)
- Cross-border cooperation to share benefits of digitalisation in order to improve capacities and competences of SMEs and entrepreneurs in innovation management
- Strengthening cross-border cooperation with the view to promote the collection of data and big data, including cross-border maritime data in order to achieve evidence-based policy making.

POTENTIAL BENEFICIARIES

- All stakeholders involved in the process of digital transformation and application of relevant policies at national, regional and local level, Business support organisations and businesses (e.g., cultural and creative industries, tourism, agriculture and fisheries sectors, etc.), Higher education institutions

OUTPUT INDICATORS

- 6 Jointly Developed Solutions
- 30 Pilot actions Jointly Developed

SO1.3.

Enhancing **growth and competitiveness** of SMEs and job creation in SMEs

INDICATIVE ACTIONS

(Non exhausted list)

- Schemes to scale up smart economic transition by enabling cross-sectoral cooperation to help SMEs, other emerging enterprises (start-ups, incubators) and young entrepreneurs in key sectors of the area.
- Promote cross-border platforms and networks to enhance SMEs modernisation and support their internationalisation through business environment improvements and cooperation.
- Enabling the creation of entrepreneurial ecosystem, cross-border cluster development, networking and exchange of know-how and good practices
- Exchange good practices and explore cross-border business support services, especially support business to access finance..

POTENTIAL BENEFICIARIES

All stakeholders involved in the economic districts and clusters of the cross-border area, Key actors of the innovation and business system (universities, laboratories, policy departments, regulators, research institutions, chambers of commerce, development and innovation agencies, business networks and incubators, private and public institutions, etc.).

OUTPUT INDICATORS

- 8 Jointly Developed Solutions
- 40 Pilot actions Jointly Developed

Priority 2 – A greener and low carbon GR-IT area

€ 46,27 M.

POLICY OBJECTIVE 02
a **greener**, low carbon
transitioning towards
a net zero carbon
economy

PRIORITY 2

Enhanced
cooperation for a
greener and low
carbon **GR-IT area**

SPECIFIC OBJECTIVES

SO2.4.

Promoting climate change
adaptation and disaster risk
prevention and resilience

SO2.6.

Promoting the transition to a
circular and resource efficient
economy

SO2.7.

Enhancing protection and
preservation of nature, biodiversity
and green infrastructure

SO2.4.

Promoting climate change adaptation and disaster risk prevention and resilience

INDICATIVE ACTIONS

(Non exhausted list)

- Promote the use and transfer of innovative and digital solutions in addressing climate change
- Cross border actions including pilot actions for civil protection and disaster management
- Developing common strategies and solutions

POTENTIAL BENEFICIARIES

Policy-makers Research institutions,
Environmental organisations, Public
sector, Civil society

OUTPUT INDICATORS

- 16 Jointly Developed Solutions
- 80 Strategies and action plans jointly developed

SO2.6.

Promoting the transition to a circular and resource efficient economy

INDICATIVE ACTIONS

(Non exhausted list)

- Cross-border cooperation for knowledge building, develop of common methods and practices, common strategies and action plans in blue circular economy
- Best practices and demonstration for improving waste management policies and competences of the public and private sector at the cross-border area, including the prevention, processing and recycling of waste tackling specific types of waste (maritime, micro-plastics, textiles, waste related to pandemic equipment, construction, etc.)
- Promotion of joint actions among key stakeholders for the monitoring of marine litter (joint clean-up campaigns) that is linked also to coastal management
- Setting-up joint policy frameworks for sustainable products and supporting local and regional governance structures that encourage blue circularity, eco-innovation and eco-design approaches in the entire life-cycle of products

POTENTIAL BENEFICIARIES

Stakeholders related to circular economy policies and practices: regional, local, urban and other public authorities, economic and social partners, and civil society organizations, Research and innovation actors, Education and training organisations, Regional development agencies, environmental institutions, NGOs, Natura 2000 areas

OUTPUT INDICATORS

- 16 Jointly Developed Solutions
- 80 Strategies and action plans jointly developed

SO2.7.

Enhancing protection and preservation of nature, biodiversity and green infrastructure

INDICATIVE ACTIONS

(Non exhausted list)

- Improve policy frameworks for biodiversity and implement common strategies to conserve and restore ecosystems with macro-regional and broader effects.
- Joint integrated management of natural resources with a focus on reducing all forms of pollution
- Joint integrated environmental action targeting pollution prevention and adopting remediation measures.
- Drafting and implementing joint management and governance plans for coastal ecosystems, marine protected areas and their shared biological resources
- Improving the accessibility to and integration of biodiversity databases
- Development of common Green/Blue corridors for improved quality of life and protection of terrestrial/marine natural habitats and ecosystems

POTENTIAL BENEFICIARIES

Local, regional, national authorities, Environmental organisations, Academic and research institutes, Development agencies at local/regional level, NGOs

OUTPUT INDICATORS

- 11 Jointly Developed Solutions
- 55 Strategies and action plans jointly developed

>>> **Priority 3 - A more social and inclusive GR-IT area**

€ 36,20 M.

PRIORITY 3
Enhanced
cooperation for a
more **social** and
inclusive **GR-IT**
area

SPECIFIC OBJECTIVES

- SO4.2.**

Improving equal access to inclusive and quality services in education, training and lifelong learning
- SO4.5.**

Ensuring equal access to health care and fostering resilience of health systems
- SO4.6.**

Enhancing the role of culture and sustainable tourism

SO4.2.

Improving equal access to inclusive and quality services in education, training and lifelong learning

INDICATIVE ACTIONS

(Non exhausted list)

- Support partnerships/initiatives for enhanced access to employment for groups that may face constraints (women, youth, migrants, etc.)
- Promote collaborative cross border cooperation for a better understanding of the economic and social integration of women, young people to encourage them to become more involved in education and capacity building schemes as well as in the labour market.
- Support the development of joint platforms or other type of digital infrastructure (e-learning, e-education, e-trainings, etc.)
- Promote actions for networking and exchange of information and good practices in the field of inclusive and quality education services.

POTENTIAL BENEFICIARIES

Private and Public Stakeholders

OUTPUT INDICATORS

- 3 Jointly Developed Solutions
- 1500 Participants in joint actions
- 15 Pilot actions developed jointly

SO4.5.

Ensuring equal access to health care and fostering resilience of health systems

INDICATIVE ACTIONS

(Non exhausted list)

- Building a common vision to improve health care provision and enhance equal and timely access to quality services, through the development of joint platforms and other cross-border digital tools, innovations, applications and services.
- Reinforcement of the quality of and the access to health sector and services in the Programme area

POTENTIAL BENEFICIARIES

Private and Public Stakeholders

OUTPUT INDICATORS

- 5 Jointly Developed Solutions
- 25 Pilot actions developed jointly
- 5 Solutions taken up by organisations
- 200 annual users of modernized e-health services

SO4.6.

Enhancing the role of culture and sustainable tourism

INDICATIVE ACTIONS

(Non exhausted list)

- Development of skills with regard to tourism contemporary trends with a focus on innovation, social inclusion and economic development, green and digital upskilling and reskilling
- Clustering actions on tourism and culture linked to territories with a focus on development of new models of sustainable tourism
- Support actions in the field of cultural and creative industry,
- Support actions for the development of sustainable and thematic cultural routes and harmonised distribution of tourism flows, promote common tourist destinations.

POTENTIAL BENEFICIARIES

Local, regional, national authorities, Development agencies at local/regional level, Enterprises and organisations in the tourism and culture sectors

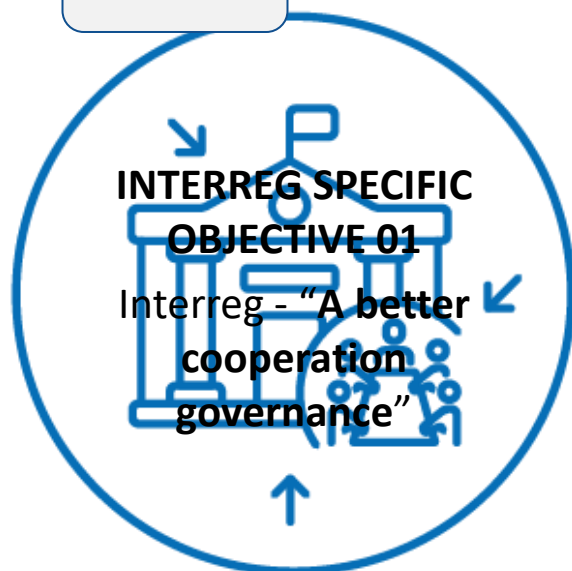

OUTPUT INDICATORS

- 19 Cultural and tourism sites supported
- 95 Pilot actions developed jointly

Priority 4 – Cooperative Governance in GR-IT area

€ 4,38 M.

PRIORITY 4

Enhanced governance for cooperation in the GR-IT area

SPECIFIC OBJECTIVES

ISO1.1.

Enhance the institutional capacity of public authorities

ISO1.4.

Enhance institutional capacity of public authorities and stakeholders to implement macro-regional strategies

ISO1.1.

Enhance the institutional capacity of public authorities

INDICATIVE ACTIONS

(Non exhausted list)

- Support of Public Authorities especially of small Municipalities in order to simplify Administrative procedures

POTENTIAL BENEFICIARIES

Programme Bodies and Key Stakeholders

OUTPUT INDICATORS

- 1 Jointly developed Solution
- 5 Strategies and action plans developed jointly

ISO1.4.

Enhance institutional capacity of public authorities and stakeholders to implement macro-regional strategies

INDICATIVE ACTIONS

(Non exhausted list)

- Support of Institutions to manage the macro-regional strategies (EUSAIR)

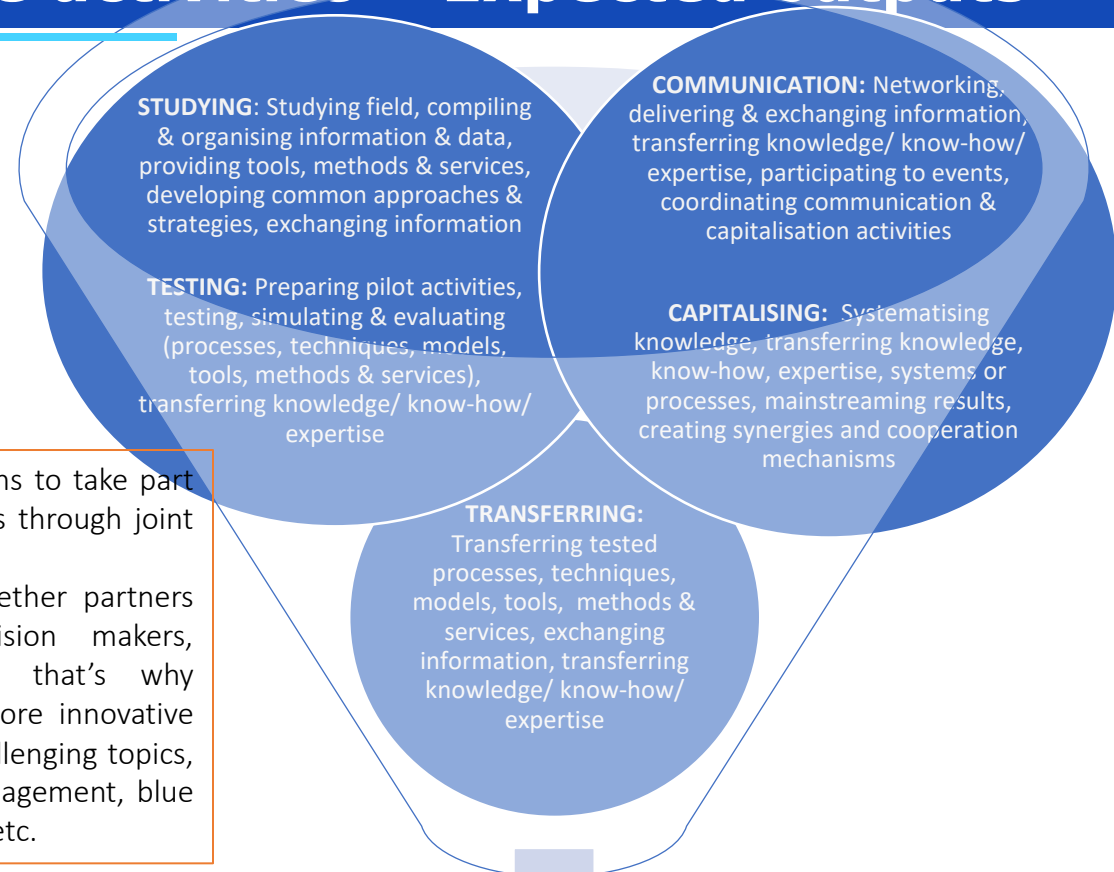

POTENTIAL BENEFICIARIES

Programme Bodies and Key Stakeholders

OUTPUT INDICATORS

- 3 Jointly developed Solutions
- 15 Strategies and action plans developed jointly

>>> **Eligible activities – Expected outputs**

Interreg Programmes ask citizens to take part in projects that solve problems through joint solutions. They are known to bring together partners from various sectors (decision makers, academics, companies) and that's why **INTERREG** results are often more innovative (thanks to cooperation) on challenging topics, like green transition, risks management, blue economy, sustainable tourism, etc.

Methods (methodologies, guidelines, manuals, action plan, roadmaps...), **Tools** (platforms, toolbox, training courses, software, protocols, legal acts...), **Databases** (best practice, thematic db...), **Meetings** (congress exhibitions, meetings, workshops...), **Reports** (needs analysis, SWOT analysis, comparative analysis, case study, feasibility study...), **Pilot actions, Networks** (clusters, business networks...), **Maps** (maps, routes, GIS...), **Digital or Written Communication, Events, Recommendations**

Intensity of cross-border cooperation

• **Joint development** (compulsory)

- All partners should contribute to the development of the project;
- Partners should define how the project will operate, i.e. joint development of objectives and outcomes, budget, timing and responsibilities for work packages and tasks to achieve the objectives;
- Partners should identify knowledge and experience that each one of them brings to the project, as well as what each partner expects to get from the project.

• **Joint implementation** (compulsory)

- The Lead Partner should bear the overall responsibility for the project. All partners should undertake responsibilities for different parts of the implementation;
- Each project partner responsible for a work package should coordinate and ensure that planned activities are carried out, interim targets are met and unexpected challenges to implementation are dealt with and ensure clear content-based links;
- Several partners may contribute to each work package.

All partners shall co-operate in:

• **Joint financing**

- The project should have a joint budget with funding allocated to partners according to the activities they are carrying out (the budget split should reflect partner responsibilities);
- The budget should include annual spending targets and spending targets per work package;
- In general, all partners should contribute with co-financing.

• **Joint staffing**

- All project partners should have a defined role and allocate staff to fulfill this role;
- Staff members should coordinate their activities with others involved in the activity or work package and exchange information regularly;
- There should be no unnecessary duplication of functions in different partner organizations.

All partners shall cooperate in at least one of the following ways:

Consistency with EU horizontal policies

Equal opportunities and non-discrimination

[Charter of Fundamental Rights of the European Union , Article 9 of Regulation (EU) 2021/1060, EU Web Accessibility Directive (EU) 2016/2102]

- Promotion of equal opportunities and non-discrimination between persons:
 - of different religious belief, political opinion, racial group, age, marital status or sexual orientation
 - with a disability and persons without
 - with dependants and persons without

Sustainable development

[UN Sustainable Development Goals, Paris Agreement & “do no significant harm” principle]

- Promotion of sustainable development:
 - environmental sustainability
 - economic sustainability;
 - social sustainability

Projects should follow an “**environmental sustainability by design**” approach

‘DNSH’

Equality between men and women

[Charter of Fundamental Rights of the European Union , Article 9 of Regulation (EU) 2021/1060]

- Promotion of equality between men and women

...during all phases of the project lifecycle, i.e. from its design and preparation to its implementation and reporting

Synergies & Complementarities / Capitalisation

SYNERGY
1+1=3

Synergies & Complementarities

What applicant are expected to do when developing projects?

- Research and take into account **existing outputs and results** developed by previous projects of Interreg Greece-Italy, as well as other Interreg programmes and EU financing instruments;
- Make use of valuable tools for **better coordination and synergies** and links to project databases (i.e. keep.eu);
- Become familiar with **relevant studies and evaluation reports** before designing the project intervention logic or developing the project work plan.

Capitalisation of results within Interreg Programmes

Capitalisation is the transfer or re-use of project results

How to identify your capitalization activities?

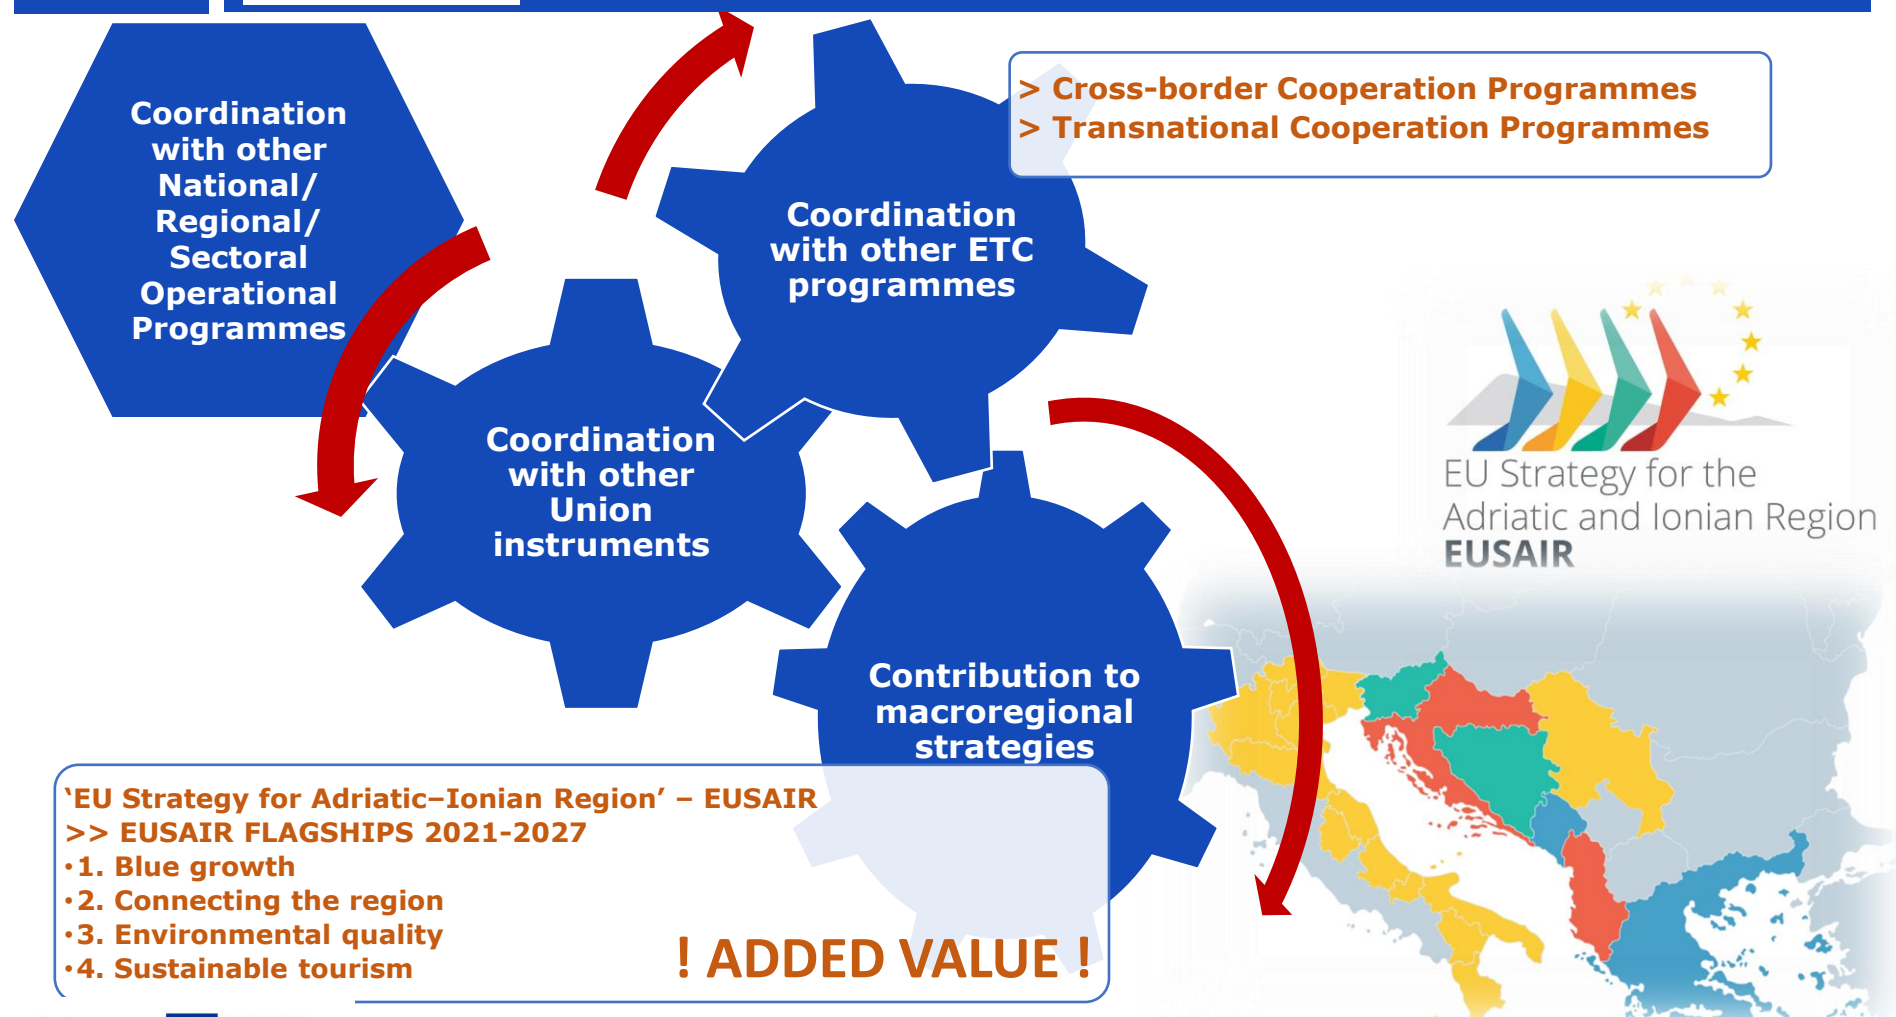

- Plan in advance, a **roadmap of possible actions** is strongly recommended;
- **Identify** in advance **who can reuse your results**: other projects, thematic Clusters, Communities, other funding schemes or institutional organisations (Public administration, NGOs, etc);
- **Link capitalization with communication activities** which can contribute to influence policy debate or transfer tools beyond the project area, ensuring that results have a lasting impact;
- Ensure **capitalization activities** are present in the Application Form, either clearly illustrated in the communication activities or in other thematic actions.

Why are applicants asked for Synergies & Complementarities and Capitalisation activities when designing projects?

- ✓ **increase the efficiency** of the Interreg Greece-Italy co-financing because it ensures that project ideas are innovative and not double-funded;
- ✓ **improve the effectiveness and impact** of cooperation projects when cross-border actions build on past achievements.
