**From 12.30 -14.00 CET**  
**Online**

## INDEX kick off meeting: "Potentials for synergies in the Mediterranean"

6 October 2023

Online

### Background and objectives

Before leaving for summer, the Med Lab Group, organised an INDEX info session for our area, when most of the programmes working on synergies in the Mediterranean area have expressed interest to test the tool and in sharing information across programmes about project applications, funding, and partner involvement to support synergy efforts. All in an automatised way and thus, in a more efficient manner. Now, we are back into the topic, and Interact and Tesim invites you to the online INDEX Kick off meeting for the Mediterranean.

#### A quick reminder on what exactly is INDEX?

INDEX is an online platform developed by Interact with the primary objective of enhancing Interreg programme management practices and promoting cooperation and communication among programmes operating within the same geographical area. This platform facilitates seamless sharing of pre-defined data elements among programmes involved in the project, enabling them to coordinate and develop joint actions.

**The aim** of the kick off meeting is to focus on discussing the user cases. What would programmes wish to use Index for? Exchanging basic application data or go beyond this and add more cases.

We are aware that some of the invited programs are already involved in the development of a pilot for INDEX focusing on exchange across Interreg IPA CBC programmes, where a few of them are also members of the Med Lab Group. However, and as we aim to build close links between both pilots, we extend a warm welcome to them to participate also in this kick off session with a Mediterranean perspective.

### Agenda

12.30 – 12.35

**Introduction of the meeting.**

*Interact and TESIM*

12.35 – 12.45

**Update on INDEX latest developments**

*Janne Kiilunen and Ilze Ciganska. Interact.*

12.45 – 13.55

**What kind of information would Mediterranean Programmes would like to use INDEX for?. Discussion about possible user cases.**

*Interact and TESIM*

13.55 \_ 14.00

**Conclusions and Next Steps.**

*Interact and TESIM*
